Professional Summary

Business operations professional with 3+ years of experience managing daily operations, accounting, and inventory workflows while building Power BI and SQL-driven reporting systems. Experienced in translating raw sales and inventory data into dashboards that support executive decision-making, and in automating manual reporting processes to reduce turnaround time.

Technical & Business Skills

- **Data & Analytics:** Power BI, Tableau, Advanced Excel (Pivot Tables, Advanced Formulas), SQL (MySQL, SQL Server)
- **Business Operations:** Odoo ERP (Sales, Inventory, Accounting), Operations Management, KPI Tracking
- **Soft Skills:** Problem Solving, Detail-Oriented, Adaptability, Cross-Functional Communication

Professional Experience

Business Operations & Reporting

Dec 2025 – Present, Cairo, Egypt

Daman (Phone Accessories Importer)

- Oversee accounting processes and regulate sales transactions on the internal system for imported accessories
- Act as the primary operational hub, ensuring seamless integration between sales, inventory management, and executive leadership
- Generate executive dashboards to visualize sales performance and inventory movement for the general manager

Business Operations Specialist

Apr 2024 – Sep 2025, Cairo, Egypt

Khiam (Clothing Company)

- Managed end-to-end business operations, serving as the central point of contact for all store activities and administrative workflows
- Performed daily accounting tasks and organized sales movements on the internal system to ensure accurate financial tracking
- Developed a comprehensive operational spreadsheet system to track daily inventory shifts, cash registers, and employee attendance logs
- Designed interactive dashboards for executive management to monitor KPIs and support strategic decision-making

Administrative Assistant & Data Analyst

Jun 2022 – Jun 2024, Cairo, Egypt

Kandil Feed Factory

- Managed daily administrative operations, including sales support, basic accounting, and inventory tracking using Odoo ERP
- Analyzed production and sales metrics to identify key trends, developing Power BI dashboards for leadership to monitor daily KPIs
- Automated data cleaning and reporting workflows, saving approximately 5 hours weekly and improving operational efficiency and data accuracy

Note: A two-month transition overlap with Khiam (Apr–Jun 2024) reflects handover between roles.

Key Projects

- **Data Professional Survey Breakdown Dashboard (Power BI):** Designed an interactive dashboard using DAX to visualize industry survey trends, aligning insights with business objectives
- **Bike Sales Dashboard (Excel):** Developed a comprehensive dashboard utilizing pivot tables and advanced formulas to analyze bike sales performance and customer trends
- **Retail Shop Operations & Accounting System (Spreadsheets):** Engineered an automated tracking system with complex formulas to audit daily inventory shifts, manage cash registers, and track employee attendance logs

Education

Bachelor of Economics and Political Science

2019 – 2023

Suez University, Suez, Egypt Grade: Very Good | Relevant Coursework: Statistics, Mathematics, Econometrics

Certifications & Training

- Microsoft 70-461 & 70-761: Querying Microsoft SQL Server with Transact-SQL (Feb 2025)
- Microsoft Power BI Desktop for Business Intelligence (Jan 2025)
- Associate Data Analyst in SQL – DataCamp (Jun 2024)
- Odoo ERP Training (Sales, Inventory & Accounting)
